Product Description

Product Description:

Our nuts are made from durable stainless steel, ensuring that they can withstand the toughest of conditions. They are perfect for a wide range of applications, including automotive, construction, and industrial use.

The nut thickness of our Hex Head Nuts is H9.5*3, which means that they have a thickness of 3mm and are designed to fit a hexagonal bolt or screw. This makes them particularly useful for applications where a secure fit is essential.

As part of our commitment to providing high-quality products, we ensure that all of our nuts have a low sodium content of just 100 milligrams per serving. This ensures that you can use our nuts with confidence, knowing that they are safe and healthy to use.

Our stainless steel nut range is perfect for those looking for a durable and reliable fastening solution. With their high-quality construction and excellent performance, our Hex Nuts are guaranteed to provide a secure fit every time. So whether you're working on a DIY project or need a reliable industrial fastening solution, our stainless steel nuts are the perfect choice.

Applications:

FINEX Hex Nuts are a reliable and durable choice for a variety of applications, making them suitable for a wide range of occasions and scenarios. Whether you are in the automotive industry, construction, or manufacturing, these nuts can provide you with the strength and stability you need to keep your projects running smoothly.

Thanks to their high-quality construction and certification, you can trust that FINEX Hex Nuts will meet your expectations for performance and reliability. Made in China with ISO9001/ISO14001/IATF16949/RoHs certification, these nuts are a top-of-the-line choice for any professional or DIY project.

With a minimum order quantity of 30000, FINEX Hex Nuts are a cost-effective solution for your project needs. Priced between 0.01~0.1 USD, these nuts are an affordable option for anyone looking for high-quality fasteners.

Thanks to their small packing, carton packing, and pallet packaging details, FINEX Hex Nuts are easy to store and transport, making them ideal for any project. Whether you need a few nuts or a large quantity, you can count on FINEX to provide you with the quantity and packaging you need to get the job done.

When it comes to delivery time, FINEX Hex Nuts are a reliable choice. With in-stock items shipping in just 5~7 working days and customized orders shipping in 15~25 working days, you can count on FINEX to get your order to you quickly and efficiently.

Payment is easy with FINEX Hex Nuts, as they accept T/T payments.

Whether you need carbon steel nuts or stainless steel nuts, FINEX has you covered. With a thread size of M3 and a Hex Head Nuts type, these nuts can be used for a wide range of applications.

And if you're not sure if FINEX Hex Nuts are the right choice for your project, samples are available to help you make an informed decision.

So whether you're working on a construction project, manufacturing a product, or just need reliable fasteners for your DIY projects, FINEX Hex Nuts are a top choice. With their high quality, durability, and affordability, these nuts are a must-have for any project.

Order your FINEX Hex Nuts today and get the perfect fasteners for your project needs.

Packing and Shipping:

Custom Packaging

Product Packaging:

Our delicious nuts come in a sturdy, resealable bag that keeps them fresh for longer. The bag is made of durable, food-grade material that is safe for storing food items. The design is simple and elegant, with our logo prominently displayed on the front.
