Product Description:

With a thread size of M4 and a total length of 44mm, this hexagon spacer standoff is perfect for use in a variety of electronic applications. Its machine thread type ensures that it can be easily installed and secured, making it a great choice for both professionals and DIY enthusiasts alike.

One of the standout features of this hexagon spacer standoff is its blue zinc finish. The finish not only gives the standoff a sleek and professional look, but it also provides protection against corrosion and other types of wear and tear.

Whether you're working on a small DIY project or a large-scale electronic application, this hexagon spacer standoff is sure to be a valuable addition to your toolkit. So why wait? Order your Hexagon Spacer Standoff today and experience the difference for yourself!

Applications:

The FINEX Hex Standoff has a machine thread type and a thread size of M4. Its total length measures 44mm and it has a blue zinc finish. This product is specifically designed for use in electronics applications.

Some possible product application occasions and scenarios for the FINEX Hex Standoff include:

Mounting circuit boards inside electronic devices such as computers, televisions, and mobile phones.

Assembling electronic components and ensuring secure spacing between them.

Creating a stable and reliable connection between electronic components and surfaces.

Securing and organizing cables within electronic devices.

Ensuring proper ventilation and air flow within electronic devices.

The FINEX Hex Standoff is a versatile and essential component for any electronics manufacturer or DIY enthusiast. Its strong and durable design, combined with its certifications and quality assurance, make it a reliable choice for a variety of applications.
