Product Description:

This flat washer is an essential component in any assembly project. It provides a smooth surface for distributing the load of a threaded fastener, preventing damage to the surface and improving the connection. Made from high-grade Stainless Steel 304, this washer is known for its excellent corrosion resistance, durability, and strength.

Our flat washer comes in a natural finish, making it suitable for various applications. It is perfect for use in harsh environments where rust and corrosion can be a problem. The natural finish also provides a clean and professional look to any project it is used in.

This flat washer is available in various sizes, making it suitable for multiple applications. It is commonly used in the automobile manufacturing industry to provide support in various car parts such as engines, transmissions, and suspension systems. The medical equipment industry also uses this washer in various equipment such as surgical tools and hospital beds. It is also used in household appliances such as washing machines, dryers, and refrigerators.

When it comes to assembly projects, the flat washer is a crucial component. It provides necessary support and distributes the load of a fastener, preventing damage and improving the connection. Our Stainless Steel 304 flat washer is the perfect solution for various applications in the Automobile Manufacturing, Medical Equipment, and Household Appliances industries.

Available Material	1.Stainless Steel: SS303, SS304, SS316, SS410, SS420; 2.Carbon steel: C1006,C1010,C1018,C1022,C1035K,C1045; 3.Brass: C3602,C3604,Hpb59,Hpb62,Hpb65,Hpb58,Hpb70 ; or as your requirements
Standard	GB/DIN
Surface finish	Zinc plated, Nickel plated, Bronze, Copper,Phosphate, Oxidation black, Passivation, Tin, Dacromet, Gold, Chrome, Silver, Phosphorization,Zinc-nickel alloy plated etc.

Applications:

The FINEX Flat Washer is a high-quality washer product manufactured in China. It has multiple certifications, including ISO9001, ISO14001, IATF16949, and RoHs, ensuring its quality and environmental friendliness. The minimum order quantity for this product is 30,000 units, and it is available for purchase at a price range of 0.01~0.1 USD.

The FINEX Flat Washer is available in a range of thicknesses from 0.8mm to 8mm and comes in a standard size of $\Phi 3\sim 36$. It is a flat metal washer that is designed for various applications, including automobile manufacturing, medical equipment, and household appliances. The washer types available in this product line are flat, which are ideal for general-purpose applications such as fastening and spacing.

In terms of packaging, the FINEX Flat Washer is available in small packing, carton packing, and pallet packing. The delivery time for this product is 5~7 working days if it is in stock. However, if the product requires customization, the delivery time may extend to 15~25 working days. Payment terms are T/T, and customers can expect their orders to be shipped promptly after payment has been received.

The FINEX Flat Washer is an excellent choice for those looking for a reliable and high-quality washer product. The washer is made of stainless steel, making it highly durable and long-lasting. It is especially suitable for use in fender washers, where strength and durability are crucial.
