

Customized Stainless Steel Hollow Tubular Rivets For Handbags Connection

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: finexpress
- Model Number: rivet
- Minimum Order Quantity: 50000
- Price: \$0.05/pieces 1000-29999 pieces

Product Specification

- Material: Stainless Steel, Steel, Aluminium
- Finish: Bright(Uncoated), Custom, Black Oxide
- Standard: DIN
- Male Screw Size: TM#8-32*6
- Female Screw Size: 10.5*8.5-#8-32
- Package: Small Packing+Carton Packing+Pallet
- Function: Connection, Fastening, Connection, Fastening And Decoration
- Range Of Application: Holster, Handbags, Belts, Bookbinding, Furniture, Etc.
- MOQ: 1000 Sets In Stock, 30,000 Sets Customized
- Certificate: ISO9001:2015, RoHs, MTC
- Reliability Test: Mechanical Dimensions, Hardness Test, Salt Spray Endurance Test
- Highlight: **Stainless Steel Hollow Tubular Rivets, Customized Hollow Tubular Rivets, Customized Stainless Steel Hollow Rivets**

Product Description

Customized Stainless Steel Hollow Tubular Rivets For Handbags Connection

FINEX | Fine and Express FASTENERS

Unparalleled Customization for Your Creative Vision

Our Customized Stainless Steel Hollow Tubular Rivets are designed to bring your unique handbag designs to life. Whether you're aiming for a specific size to fit the delicate structure of a clutch or need a non - standard shape to match an avant - garde handbag concept, we can customize the rivets precisely to your requirements. Our team of experts collaborates closely with you, understanding every detail of your design, from the number of rivets needed for a particular pattern to the finish that complements your handbag's material. This level of customization allows you to create handbags that stand out in the market, with rivets that are not only functional but also integral to the overall aesthetic.

Superior Stainless Steel for Durability and Style

Constructed from high - grade stainless steel, these rivets offer exceptional durability. Stainless steel is renowned for its resistance to corrosion, ensuring that your handbags will maintain their pristine appearance over time, even when exposed to moisture, sweat, or environmental pollutants. The material also provides excellent strength, making the rivets reliable for long - term use. Moreover, the natural luster of stainless steel adds a touch of elegance and sophistication to any handbag. Whether it's a classic leather handbag or a trendy fabric tote, the stainless - steel rivets enhance the overall look, giving it a high - end and polished finish.

Perfect for Handbag Connections

The hollow tubular design of our rivets makes them specifically tailored for handbag construction. The hollow center allows for easy insertion of straps, handles, or decorative elements, providing a secure and seamless connection. The tubular shape distributes the stress evenly, preventing the material from tearing or fraying around the rivet site. This is especially crucial for handbags, as they are often subject to daily wear and tear, including being carried, stuffed with items, and placed on various surfaces. Our rivets ensure that your handbags can withstand these stresses while maintaining their structural integrity.

Precision Manufacturing for Consistent Quality

We employ state-of-the-art manufacturing processes to ensure that every customized rivet meets the highest quality standards. Each rivet is precision-crafted to exact tolerances, guaranteeing a consistent fit and finish. The manufacturing process is closely monitored to ensure that the stainless steel is of the highest purity and that the hollow tubular shape is formed accurately. This attention to detail means that you can rely on our rivets for every handbag you create. Whether you're a small-scale handbag designer or a large-scale manufacturer, you can be confident that our rivets will perform flawlessly in your production line.

Cost-Effective and Efficient

Despite their high-quality and customized nature, our Stainless Steel Hollow Tubular Rivets offer a cost-effective solution for handbag production. We optimize our manufacturing processes to keep costs down without sacrificing quality. Additionally, the easy-to-use design of the rivets reduces assembly time, increasing overall production efficiency. This combination of cost-effectiveness and efficiency makes our rivets an attractive choice for businesses looking to balance quality and profitability in the competitive handbag market.

Exceptional Customer Service

Our customer service team is dedicated to providing you with the best support throughout your experience with our rivets. From the initial consultation about customization options to after-sales support, we're here to assist you. If you have any questions regarding the product's compatibility with different handbag materials, installation techniques, or order details, we respond promptly and comprehensively. We strive to make the entire process of ordering and using our customized rivets as smooth and stress-free as possible.

Choose our Customized Stainless Steel Hollow Tubular Rivets for your handbag connection needs and experience the perfect blend of customization, quality, and service.

More Detail Informations

Available Material

- 1.Stainless Steel: SS303, SS304, SS316, SS410, SS420;
 - 2.Carbon steel: C1006,C1010,C1018,C1022,C1035K,C1045;
 - 3.Brass: C3602,C3604,Hpb59,Hpb62,Hpb65,Hpb58,Hpb70 ;
 - 4.Aluminum: Al6061, Al6063 etc
- or as your requirements

Head type

CSK Head,Pan Head,Truss Head,Hexagon Head,Round Head,Oval Head,Button Head,Cap Head,Cheese Head,etc.

Hardness	Carbon Steel:HRC:28~35 ,HV450~700 Alloy Steel:HRC:32~39(grade10.9) HRC:39~44(grade12.9)
Finish	Zinc plated, Nickel plated, Bronze, Copper,Phosphate, Oxidation black, Passivation, Tin, Dacromet, Gold, Chrome, Silver, Phosphorization,Zinc-nickel alloy plated etc.
Sample Available	The sample is free of charge if we have the existing tooling,you only need to pay for the freight cost
Delivery time	Samples time 3-5 working days, Lead time 20-25 working days
Pricing Term	EXW Dongguan(FCA),FOB, CIF, CNF, DDU,etc.
Packing	Bulk in PE bag or Small boxes.then in carton .pallet
Payment term	TT (30% in advance as deposit, balance before delivery) , L/C, Western Union,PayPal etc
Management system	ISO9001:2015
Certificate	ISO,ROHS

Why Choose Us

NO1.Drive compariason

NO2.Torque comparison

NO3.Screw Plating Comparison

Our screws: good finish, clear thread, even coating, bright appearance.

VS

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

NO4.Screw Material Comparison

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength, good toughness requirement of ISO

VS

Bad screws on the market: bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength and bad toughness.

NO5.Mechanical Properties comparison

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after bent.

VS

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not tempered.

NO6. Corrosion Resistance Comparison of SUS304

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity standard, they won't be broken after 90° bent, high strength, good toughness.

VS

SUS304 screws on the market: nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement. The finish will be oxidized, rusted and lose anti-corrosion capacity.
