

Customized Alloy Hex Stand Off Female Threaded Hex Standoff

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FinExpress
- Model Number: Motherboard Hex Standoff
- Minimum Order Quantity: 30000
- Price: \$0.08/pieces 1000-29999 pieces

Product Specification

- Material: ALLOY, Stainless Steel
- Type: Hex Standoff
- Size: Motherboard Spacer Standoff
- Product Name: Motherboard Hex Standoff
- MOQ: 1 Piece In Stock, 30,000 Sets Customized
- Package: Small Packing+Carton Packing+Pallet
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days
- Service: OEM ODM Custom Service
- Length: 1mm~500mm
- Certificate: ISO9001:2015, RoHs
- Highlight: Customized Hex Stand Off, Alloy Threaded Hex Standoff, Customized Hex Female Standoff

Tailored to Your Exact Needs

Our Customized Alloy Hex Stand Off Female Threaded Hex Standoffs are designed with customization at the core. Whether you require specific lengths, thread pitches, or unique alloy compositions, we've got you covered. Our team of experts works closely with you to understand your project requirements, ensuring that every standoff is crafted to perfection. This level of customization allows you to optimize the performance of your assemblies, making them ideal for a wide range of applications, from electronics manufacturing to high - end machinery production.

Exceptional Alloy Construction

We use only the finest alloys in the production of our hex standoffs. These alloys are carefully selected for their superior strength, corrosion resistance, and thermal

stability. The combination of these properties ensures that our standoffs can withstand the harshest operating conditions, providing long - term reliability. The alloy construction also offers excellent electrical insulation properties, making them suitable for applications where electrical isolation is crucial, such as in circuit boards and electrical enclosures.

Precise Female Threadin

g

The female threading on our hex standoffs is machined with utmost precision. The threads are cut to exact tolerances, ensuring a perfect fit with male - threaded components. This precision not only simplifies the assembly process but also guarantees a secure and vibration - resistant connection. Whether you're using standard - sized bolts or custom - made threaded rods, our standoffs will provide a snug and reliable mating surface.

Hexagon al Design for Easy Handling

The hexagon shape of our standoffs is more than just a design choice; it's a

functional feature. The hexagonal head provides a larger surface area for gripping, making it easier to install and remove the standoffs using common tools such as wrenches or pliers. This design also ensures that the standoffs can be tightened to the required torque levels without slipping, providing a secure and stable connection.

Versatile Applications

Our Customized Alloy Hex Stand Off Female Threaded Hex Standoffs are incredibly versatile. In the electronics industry, they are used to space and support circuit boards, providing electrical insulation and mechanical stability. In the automotive sector, they can be found in engine compartments, securing components and providing isolation. They are also widely used in the aerospace industry, where precision and reliability are of utmost importance. No matter the industry or application, our standoffs offer a reliable and customizable solution.

Quality Assurance

Quality is our top priority. Every Customized Alloy Hex Stand Off Female Threaded Hex Standoff undergoes rigorous quality control checks throughout the manufacturing process. From the raw material inspection to the final product testing, we ensure that each standoff meets our high - standards of quality. This commitment to quality means that you can trust our standoffs to perform flawlessly in your projects.

Exceptional Customer Service

Our dedicated customer service team is here to support you every step of the way. From the initial consultation to the final delivery, we are committed to providing you with the best possible experience. If you have any questions about our products, customization options, or need assistance with your order, our team is just a phone call or email away. We strive to respond to all inquiries promptly and provide you with the information you need to make informed decisions. Choose our Customized Alloy Hex Stand Off Female Threaded Hex
