

Copper Threaded Hex Standoffs 1mm Length Customized Male Female Spacer

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FinExpress
- Model Number: Motherboard Hex Standoff
- Minimum Order Quantity: 30000
- Price: \$0.06/pieces 5000-9999 pieces

Product Specification

- Material: Copper
- Type: Hex Standoff
- Size: Motherboard Spacer Standoff
- Product Name: Motherboard Hex Standoff
- MOQ: 1 Piece In Stock, 30,000 Sets Customized
- Package: Small Packing+Carton Packing+Pallet
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days
- Service: OEM ODM Custom Service
- Length: 1mm~500mm
- Certificate: ISO9001:2015, RoHs
- Highlight: **Copper Male Female Threaded Hex Standoffs, 1mm Male Female Spacer, Customized Standoff Spacers**

Product Description

Copper Threaded Hex Standoffs 1mm Length Customized Male Female Spacer

FINEX | Fine and Express FASTENERS

Unmatched Customization Capabilities

Our Customized Male Female Spacers are designed to meet the most specific and demanding requirements of various industries. Whether you need a particular size, shape, or material composition, we have the expertise and technology to bring your vision to life. From intricate designs for electronics components that demand micron-level precision to robust spacers for heavy-duty machinery applications, our customization process ensures a perfect fit for every project. You simply provide us with your specifications, and our team of skilled engineers will craft spacers that align precisely with your expectations.

Superior Quality Materials

We understand the importance of durability and performance in spacer applications. That's why we source only the highest quality materials for our Customized Male Female Spacers. For projects requiring electrical insulation, we offer a wide range of non-conductive materials that not only prevent short circuits but also withstand temperature fluctuations and environmental stressors. In contrast, for applications where mechanical strength is crucial, such as in automotive or aerospace assemblies, we utilize advanced alloys and composites that can bear heavy loads and vibrations without compromising integrity. Our commitment to material excellence guarantees the longevity and reliability of our spacers.

Precision Engineering for Perfect Fit

Each Customized Male Female Spacer is meticulously engineered to ensure an exact fit between mating components. The male and female ends are carefully machined to precise tolerances, allowing for seamless integration into your assemblies. This precision not only enhances the overall stability of your systems but also minimizes any potential play or misalignment, reducing the risk of premature wear and failure. Whether you're assembling a complex electronic circuit board or a large industrial machinery framework, our spacers will fit snugly, providing the support and separation you need.

Versatile Applications

The versatility of our Customized Male Female Spacers knows no bounds. In the electronics industry, they are essential for maintaining proper spacing between circuit boards, chips, and connectors, preventing overheating and signal interference. In the automotive sector, they play a vital role in engine compartments, chassis assemblies, and interior components, absorbing vibrations and ensuring components stay in place. For the construction and architecture fields, they can be used in curtain wall systems, facade installations, and structural supports to provide precise leveling and load distribution. No matter the industry, our spacers offer a practical and reliable solution.

Easy Installation and Maintenance

We believe that a great product should be easy to use. Our Customized Male Female Spacers are designed with simplicity in mind. They come with clear installation instructions, and their intuitive design allows for quick and hassle-free assembly. Additionally, their durable construction means minimal maintenance requirements over time. You can trust that once installed, our spacers will continue to perform optimally, saving you time and resources in the long run.

Dedicated Customer Support

Your satisfaction is our top priority. Our experienced customer support team is always available to assist you throughout the entire process, from initial inquiry to post-purchase support. Have a question about customization options? Need help with installation? Or want to place a repeat order? We're here to ensure a seamless experience, providing you with the guidance and assistance you need to make the most of our Customized Male Female Spacers.

Choose our Customized Male Female Spacer for your next project and unlock the potential of customized precision components. With our commitment to quality, customization, and customer service, we are your ideal partner for all your spacer needs.

Specification

More Detail Informations

Available Material

- 1.Stainless Steel: SS303, SS304, SS316, SS410, SS420;
 - 2.Carbon steel: C1006,C1010,C1018,C1022,C1035K,C1045;
 - 3.Brass: C3602,C3604,Hpb59,Hpb62,Hpb65,Hpb58,Hpb70 ;
 - 4.Aluminum: Al6061, Al6063 etc
- or as your requirements

Head type

CSK Head,Pan Head,Truss Head,Hexagon Head,Round Head,Oval Head,Button Head,Cap Head,Cheese Head,etc.

Hardness	Carbon Steel:HRC:28~35 ,HV450~700 Alloy Steel:HRC:32~39(grade10.9) HRC:39~44(grade12.9)
Finish	Zinc plated, Nickel plated, Bronze, Copper,Phosphate, Oxidation black, Passivation, Tin, Dacromet, Gold, Chrome, Silver, Phosphorization,Zinc-nickel alloy plated etc.
Sample Available	The sample is free of charge if we have the existing tooling,you only need to pay for the freight cost
Delivery time	Samples time 3-5 working days, Lead time 20-25 working days
Pricing Term	EXW Dongguan(FCA),FOB, CIF, CNF, DDU,etc.
Packing	Bulk in PE bag or Small boxes.then in carton .pallet
Payment term	TT (30% in advance as deposit, balance before delivery) , L/C, Western Union,PayPal etc
Management system	ISO9001:2015
Certificate	ISO,ROHS

Why Choose Us

NO1.Drive compariason

NO2.Torque comparison

NO3.Screw Plating Comparison

Our screws: good finish, clear thread, even coating, bright appearance.

VS

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

NO4.Screw Material Comparison

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength, good toughness requirement of ISO

VS

Bad screws on the market: bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength and bad toughness.

NO5.Mechanical Properties comparison

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after bent.

VS

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not tempered.

NO6. Corrosion Resistance Comparison of SUS304

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity standard, they won't be broken after 90° bent, high strength, good toughness.

VS

SUS304 screws on the market: nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement. The finish will be oxidized, rusted and lose anti-corrosion capacity.

FAQ

Q1: What is your main products and material supply?

A1: Our main products are Electronic screws, Sems screws, Tapping screws, Chicago screws, Shoulder screws etc. Special Non-standard studs, Turning parts and High-end precision complex CNC Machining parts etc.

A2: Carbon Steel, Alloy Steel, Aluminum alloy, Stainless Steel, Brass, Copper, Titanium alloy or according to your requirement.

Q2: When can I get the price?

A: We usually offer you a quotation within 12 hours, and the special offer is not more than 24 hours. Any urgent cases, please contact us directly by phone or send email to us.

Q3: What about the transportation and delivery date?

A: If the weight of goods more than 80kg, Normally we use shipment to transport the orders. It is about 20-30 days. If the weight of goods less than 80kg, or there are urgent, we can send the goods via air express, It is 3~5 days.

Q4: What's your packing? What to do in case of damaged goods during transport?

A1: Our Normal packing is bulking in Cartons, less than 20 kgs/carton, 48 cartons / pallet. We also can pack products according to your requirement.

A2: To avoid any subsequent trouble regarding quality issue, we suggest you check the goods once you receive them. If there is any transport damaged or quality issue, don't forget take the detail pictures and contact us as soon as possible, we will properly handle it to make sure your loss to reduce to the smallest.

Q5: Can I get discounts?

A: Yes, for big order, frequent customers, we give reasonable discounts.

Q6: Do you have enough capacity?

A: Our production equipment is a new imported equipment. We have a group of skilled workers who have been working for more than 10 years. Their production experience is very rich and their skills are very skilled. The screws can be 30 million pcs/month. We have sufficient funds to ensure the normal operation of the factory.
