

## Stainless Steel Locking Washer 2mm 2.5mm 3mm 3.5mm Spring Lock Washers for Heavy Industry

Our Product Introduction

for more products please visit us on [metalscrewfastener.com](http://metalscrewfastener.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FineExpress
- Model Number: copper washer
- Minimum Order Quantity: 50000
- Price: \$0.19/pieces 100-9999 pieces

### Product Specification

- Finish: Black, ZINC, Plain
- Style: Steel Washer
- Material: Stainless Steel, Steel, 18-8 STAINLESS STEEL, Nylon
- Application: Heavy Industry, Healthcare, Retail Industry, Automotive Industry, Electrical,electronics,cabint
- Standard: No Standard
- Reliability Test: Mechanical Dimentions,salt Spray Endurance Test
- Service: Customized OEM
- Sample: Availble
- Function: Connection,Fastening And Decoration
- MOQ: 1 Piece In Stock, 50,000 Pcs Customized
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days

Quality Inspection

## Quality Inspection

1.Raw material(IQC)

2.Heading

3.IPQC

4.Threading

5.IPQC

6.Hardness Testing

7.Salt spray test

8.FQC for Size and Mechanical properties

9.FQC by Manual selection

10.Packing

11.Carton strong packing

12.Pallet packing

Our company has a complete iso9001, iso14001, IATF16949 quality management system, and each product has more than 10 inspection procedures, so our products are different from those on the market as follows

## Why choose us?

### NO1.Drive comparison

### NO2.Torque Comparison

### NO3.Screw Plating Comparison

VS

Our screws: good finish, clear thread, even coating, bright appearance.

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

### NO4.Screw Material Comparison

VS

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength.

Bad screws : bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength.

## NO5.Mechanical Properties Comparison

VS

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not

## NO6.Screw Material Comparison

VS

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity.

Bad screws : nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement.
