## Product Description

HEX Head Style Solid Brass Flat Head Chicago Screw Rivets for Leather Craft Versatile

### FINEX | Fine and Express FASTENERS

Enhance your leathercraft projects with **HEX Head Style Solid Brass Flat Head Chicago Screw Rivets**, designed for both functionality and aesthetics. Crafted from high-quality **solid brass**, these rivets offer durability and a classic, polished look, making them perfect for belts, bags, holsters, and other leather goods. The **HEX head style** ensures easy installation with a wrench, while the **flat head design** provides a smooth, low-profile finish.

#### Key Features:

**Material:** Solid brass for durability and a timeless, polished appearance.

**Design:** HEX head for easy installation and a flat head for a sleek finish.

**Applications:** Ideal for leathercraft, belts, bags, holsters, and DIY projects.

**Versatility:** Suitable for a wide range of leather goods and creative designs.

**Finish:** Polished brass for a professional, elegant look.

#### Applications:

**Belts and Straps:** Securely fasten belt buckles or adjustable straps.

**Bags and Wallets:** Use in handles, closures, or decorative accents.

**Holsters and Tactical Gear:** Perfect for secure, reusable fastening.

**DIY Projects:** Great for custom designs, repairs, and creative builds.

### Why Choose HEX Head Chicago Screw Rivets?

These rivets combine strength, style, and ease of use, making them a favorite among leatherworkers and DIY enthusiasts. The HEX head ensures a secure installation, while the solid brass construction provides long-lasting performance and a classic aesthetic.

Upgrade your leathercraft projects with HEX Head Style Solid Brass Flat Head Chicago Screw Rivets – the ultimate choice for secure, stylish, and versatile fastening.

Packing	Bulk in PE bag or Small boxes.then in carton .pallet
Payment term	TT (30% in advance as deposit, balance before delivery) , L/C, Western Union,PayPal etc
Management system	ISO9001:2015
Certificate	ISO,ROHS

## Why Choose Us

### NO1.Drive compariason

### NO2.Torque comparison

### NO3.Screw Plating Comparison

Our screws: good finish, clear thread, even coating, bright appearance.

VS

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

### NO4.Screw Material Comparison

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength, good toughness requirement of ISO

VS

Bad screws on the market: bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength and bad toughness.

### NO5.Mechanical Properties comparison

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after bent.

VS

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not tempered.

### NO6. Corrosion Resistance Comparison of SUS304

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity standard, they won't be broken after 90° bent, high strength, good toughness.

VS

SUS304 screws on the market: nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement. The finish will be oxidized, rusted and lose anti-corrosion capacity.
