

Metric Phillips Truss Washer Head PT Thread Forming Screw Plastic 500mm Length

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FinExpress
- Model Number: FinExpress pt Screw
- Minimum Order Quantity: 30000
- Price: \$0.03/pieces 10000-29999 pieces

Product Specification

- Finish: Plain, Black Oxide, ZINC PLATED
- Material: Stainless Steel, Steel
- Measurement System: Metric
- Head Style: Pan, Truss, Flat
- Standard: Non-standard
- Product Name: Wn1412 Wn5452 Delta PT Thread Forming Screws For Plastic
- MOQ: 1 Piece In Stock, 30,000 Pcs Customized
- Package: Small Packing+Carton Packing+Pallet
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days
- Service: OEM ODM Custom Service
- Length: 1mm~500mm
- Certificate: ISO9001:2015, SGS, RoHs
- Highlight: Truss Washer Head Metal Screw Fastener, PT Metal Screw Fastener,

Product Description

Metric Phillips Truss Washer Head PT Thread Forming Screw Plastic 500mm Length

FINEX | Fine and Express FASTENERS

Product Overview

Meet the ultimate fastening solution for plastic, composite, and lightweight materials with our **Metric Phillips Truss Washer Head PT Thread Forming Plastic Screw**. Engineered for durability and precision, this 500mm-long screw combines a corrosion-resistant plastic construction with a self-forming PT thread design, eliminating the need for pre-drilling. Ideal for industries requiring non-metallic, non-conductive, or chemical-resistant fasteners, it ensures secure, vibration-resistant connections in specialized applications.

Key Features

High-Strength Plastic Construction

Crafted from reinforced nylon or PVC, this screw resists corrosion, chemicals, and UV exposure while remaining lightweight and non-conductive—perfect for electrical, marine, or medical environments.

PT Thread-Forming Design

Sharp, self-forming threads create precise grooves in plastic, wood, or composite materials, reducing splitting and ensuring a tight, lasting hold without pre-tapping.

Phillips Truss Washer Head

The wide truss head distributes load evenly, minimizing surface damage, while the Phillips drive allows compatibility with standard hand or electric screwdrivers.

Extra-Long 500mm Length

Designed for thick panels, tanks, or structures requiring deep penetration, such as plastic fabrication, insulation systems, or industrial equipment assembly.

ROHS & REACH Compliance

Free from hazardous substances, meeting global environmental and safety standards for consumer and industrial use.

Technical Specifications

Material: Reinforced Nylon/PVC (optional: ABS, PEEK)

Drive Type: Phillips (PH2–PH4)

Thread Type: PT (Parallel Thread-Forming)

Diameter: M4–M12 (metric)

Length: 500mm (standard); customizable up to 1,000mm

Head Style: Truss Washer Head (low-profile, wide bearing surface)

Temperature Resistance: -40°F to 220°F (-40°C to 105°C)

Load Capacity: Up to 150 lbs (non-structural, material-dependent)

Standards: ISO 7045, DIN 7985

Applications

Marine: Securing PVC pontoons, tank liners, or boat interiors.

Construction: Assembling insulation panels, plastic roofing, or composite structures.

Medical/Electronics: Non-conductive fastening in MRI machines, lab equipment, or electrical enclosures.

Automotive: Lightweight fastening for interior trim or battery housings.

Agriculture: Greenhouse frames, irrigation systems, or plastic troughs.

Specification

More Detail Informations	
Available Material	1.Stainless Steel: SS303, SS304, SS316, SS410, SS420; 2. Carbon steel: C1006,C1010,C1018,C1022,C1035K,C1045; 3.Brass: C3602,C3604,Hpb59,Hpb62,Hpb65,Hpb58,Hpb70 ; 4.Aluminum: Al6061, Al6063 etc or as your requirements
Head type	CSK Head,Pan Head,Truss Head,Hexagon Head,Round Head,Oval Head,Button Head,Cap Head,Cheese Head,etc.
Hardness	Carbon Steel:HRC:28~35 ,HV450~700 Alloy Steel:HRC:32~39(grade10.9) HRC:39~44(grade12.9)
Finish	Zinc plated, Nickel plated, Bronze, Copper,Phosphate, Oxidation black, Passivation, Tin, Dacromet, Gold, Chrome, Silver, Phosphorization,Zinc-nickel alloy plated etc.
Sample Available	The sample is free of charge if we have the existing tooling,you only need to pay for the freight cost
Delivery time	Samples time 3-5 working days, Lead time 20-25 working days
Pricing Term	EXW Dongguan(FCA),FOB, CIF, CNF, DDU,etc.
Packing	Bulk in PE bag or Small boxes.then in carton .pallet
Payment term	TT (30% in advance as deposit, balance before delivery) , L/C, Western Union,PayPal etc
Management system	ISO9001:2015
Certificate	ISO,ROHS

Why Choose Us

NO1.Drive compariason

Our screws: cross recess drive remains intact after repeatedly used.

VS

Bad screws on the market: cross recess drive cannot be used after repeatedly used, they may slip or tear out the Philips screw head.

NO2.Torque comparison

Our screws: Nylon patch is high quality, prevailing-torque is more

VS

Bad screws on the market: prevailing-torque is 0 after it is screwed in and out for five times, nylon patch will peel off.

NO3.Screw Plating Comparison

Our screws: good finish, clear thread, even coating, bright appearance.

VS

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

NO4.Screw Material Comparison

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength, good toughness.requirement of ISO

VS

Bad screws on the market: bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength and bad toughness.

NO5.Mechanical Properties comparison

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after bent.

VS

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not tempered.

NO6. Corrosion Resistance Comparison of SUS304

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity. standard, they won't be broken after 90° bent, high strength, good toughness.

VS

SUS304 screws on the market: nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement. The finish will be oxidized, rusted and lose anti-corrosion capacity.

FAQ

Q1: What is your main products and material supply?

A1: Our main products are Electronic screws, Sems screws, Tapping screws, Chicago screws, Shoulder screws etc. Special Non-standard studs, Turning parts and High-end precision complex CNC Machining parts etc.

A2: Carbon Steel, Alloy Steel, Aluminum alloy, Stainless Steel, Brass, Copper, Titanium alloy or according to your requirement.

Q2: When can I get the price?

A: We usually offer you a quotation within 12 hours, and the special offer is not more than 24 hours. Any urgent cases, please contact us directly by phone or send email to us.

Q3: What about the transportation and delivery date?

A: If the weight of goods more than 80kg, Normally we use shipment to transport the orders. It is about 20-30 days. If the weight of goods less than 80kg, or there are urgent, we can send the goods via air express, It is 3-5 days.

Q4: What's your packing? What to do in case of damaged goods during transport?

A1: Our Normal packing is bulking in Cartons, less than 20 kgs/carton, 48 cartons / pallet. We also can pack products according to your requirement.

A2: To avoid any subsequent trouble regarding quality issue, we suggest you check the goods once you receive them. If there is any transport damaged or quality issue, don't forget take the detail pictures and contact us as soon as possible, we will properly handle it to make sure your loss to reduce to the smallest.

Q5: Can I get discounts?

A: Yes, for big order, frequent customers, we give reasonable discounts.

Q6: Do you have enough capacity?

A: Our production equipment is a new imported equipment. We have a group of skilled workers who have been working for more than 10 years. Their production experience is very rich and their skills are very skilled. The screws can be 30 million pcs/month. We have sufficient funds to ensure the normal operation of the factory.
