Our company has a complete iso9001, iso14001, IATF16949 quality management system, and each product has more than 10 inspection procedures, so our products are different from those on the market as follows

Why choose us?

NO1.Drive comparison

Our screws: cross recess drive remains intact after repeatedly used.

Bad screws on the market: cross recess drive cannot be used after repeatedly used, they may slip or tear out the Philips screw head.

NO2.Torque Comparison

VS

Our screws: Nylon patch is high quality, prevailing-torque is more

Bad screws on the market: prevailing-torque is 0 after it is screwed in and out for five times, nylon patch will peel off.

NO3.Screw Plating Comparison

VS

Our screws: good finish, clear thread, even coating, bright appearance.

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

NO4.Screw Material Comparison

VS

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength.

Bad screws : bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength.

NO5.Mechanical Properties Comparison

VS

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not
