Product Description

Black White Plastic Book Binding Chicago Screw with Customized Connection Function

FINEX | Fine and Express FASTENERS

Our Black White Plastic Book Binding Chicago Screws stand out with their unique black and white color combination. This stylish look not only adds a touch of modern aesthetics to your bound books but also makes them suitable for a wide range of design themes. Whether you're creating a professional - looking photo album, a trendy journal, or an artistic portfolio, these screws will enhance the visual appeal of your project.

High - Quality Plastic Material

Crafted from premium - grade plastic, these Chicago screws are lightweight yet highly durable. The plastic construction ensures that they won't rust or corrode, making them perfect for long - term use. They can withstand regular handling and the natural wear - and - tear associated with book use, maintaining their integrity over time.

Customized Connection Function

What sets these screws apart is their customized connection function. We understand that different book - binding projects have unique requirements. These screws are designed to be easily adjustable, allowing you to add or remove pages as needed. You can customize the tightness of the connection to suit the thickness of your book, ensuring a secure hold without damaging the pages. This flexibility makes them ideal for both personal DIY projects and professional book - binding applications.

Easy Assembly and Disassembly

The Chicago - screw design is inherently user - friendly. With a simple twist - and - lock mechanism, these screws are easy to assemble and disassemble. You don't need any special tools, making the book - binding process quick and hassle - free. This is especially convenient if you're making last - minute changes to your book or want to update its contents.

Wide Application Range

These screws are suitable for a variety of book - binding projects. They can be used for creating photo albums, scrapbooks, recipe books, and even for binding business reports or manuals. Their versatility extends to different types of paper, from thin notebook paper to thick cardstock.

Quality Assurance

We are committed to providing high - quality products. Each Black White Plastic Book Binding Chicago Screw undergoes strict quality control checks to ensure that it meets our high standards. We guarantee that you'll receive screws that are free from defects and perform flawlessly in your book - binding projects.

If you have any questions about our product, such as compatibility with specific book - binding techniques or customization options, our dedicated customer service team is here to assist you. Choose our Black White Plastic Book Binding Chicago Screw with Customized Connection Function for a binding solution that combines style, functionality, and quality.

Why Choose Us

NO1.Drive compariason

NO2.Torque comparison

NO3.Screw Plating Comparison

Our screws: good finish, clear thread, even coating, bright appearance.

VS

Bad screws on the market: bad finish, uneven coating, thread is oxidized, the finish is blacked.

NO4.Screw Material Comparison

Our screws: we use quality carbon steel material, Chemical Element content in Steel meets the requirement of ISO standard, they won't be broken after 90° bent, high strength, good toughness requirement of ISO

VS

Bad screws on the market: bad carbon steel material, Chemical Element content in Steel doesn't meet the requirement of ISO standard, they will be easily broken after 90° bent, high strength and bad toughness.

NO5.Mechanical Properties comparison

Our self tapping screws: our screws have high strength, enough hardness, good toughness after heat treated, they won't be broken after bent.

VS

Bad screws on the market: they have high strength and bad toughness, thread will easily be broken, because the screws are not tempered.

NO6. Corrosion Resistance Comparison of SUS304

Our SUS304 screws: nickel chemical element content won't be less than 8, meets ISO requirement. The finish won't be oxidized, rusted and has good anti-corrosion capacity standard, they won't be broken after 90° bent, high strength, good toughness.

VS

SUS304 screws on the market: nickel chemical element content will be less than 8, even doesn't have nickel plated, which doesn't meet ISO requirement. The finish will be oxidized, rusted and lose anti-corrosion capacity.
