

INCH Triangle Eye Hook Screws Stainless Steel Customizable M5 Eye Bolt

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FinExpress
- Model Number: Eye screw
- Minimum Order Quantity: 30000
- Price: \$0.03/pieces 30000-49999 pieces

Product Specification

- Finish: Plain, Black Oxide, ZINC PLATED
- Material: Stainless Steel, Steel
- Measurement System: INCH
- Head Style: Hook Head
- Standard: Non-standard
- Product Name: Eye Screw
- MOQ: 1 Piece In Stock, 30,000 Pcs Customized
- Package: Small Packing+Carton Packing+Pallet
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days
- Service: OEM ODM Custom Service
- Length: 1mm~500mm
- Certificate: ISO9001:2015, RoHs
- Highlight: Triangle Eye Hook Screws, Customizable M5 Eye Bolt, Triangle Stainless Steel Eye Screws

Unrivaled Customization Capabilities

Our INCH Triangle Eye Hook Screws and Customizable M5 Eye Bolts are designed to meet the most exacting requirements of your projects. Whether you need a specific length to fit a unique space, a particular thread pitch for a specialized application, or a customized finish to match your aesthetic, we can accommodate your needs. Our team of experts works closely with you, ensuring that every detail is meticulously crafted to perfection. This level of customization allows you to seamlessly integrate these eye bolts and screws into your designs, whether it's for industrial machinery, DIY home improvement projects, or creative crafts.

Premium Stainless Steel Construction

Constructed from high-grade stainless steel, our products offer exceptional

durability and corrosion resistance. Stainless steel is renowned for its ability to withstand harsh environments, including exposure to moisture, chemicals, and extreme temperatures. This makes our eye hook screws and eye bolts ideal for both indoor and outdoor applications. Whether you're using them in a coastal area where saltwater is a concern, in a humid industrial setting, or in a high - traffic indoor environment, you can trust that our stainless - steel products will maintain their integrity and performance over time.

Innovative Triangle Eye Hook Design

The triangle eye hook design of our screws sets them apart from traditional eye hooks. This unique shape provides enhanced strength and stability, making it easier to attach ropes, chains, or other lifting or securing devices. The triangular shape distributes the load more evenly, reducing the risk of deformation or breakage under stress. It also offers a larger surface area for attachment, ensuring a more secure connection.

Whether you're using it for heavy - duty lifting operations or for hanging decorative items, the triangle eye hook design provides a reliable and efficient solution.

Precision M5 Threadin g

Our M5 eye bolts feature precision - machined threading. The threads are cut with extreme accuracy to ensure a perfect fit with standard M5 nuts and other mating components. This precision not only simplifies the installation process but also guarantees a tight and secure connection. You can be confident that your eye bolts will hold firmly, even in applications where vibrations or movement are present. The M5 threading also makes it easy to replace or adjust the eye bolts if needed, providing added convenience and flexibility.

Wide Range of Applicati ons

These INCH Triangle Eye Hook Screws and Customizable M5 Eye Bolts are incredibly versatile. In the industrial sector, they are commonly used

for lifting and securing heavy equipment, machinery, and parts. In the construction industry, they can be found in scaffolding systems, for hanging formwork, or for anchoring structures. For DIY enthusiasts, they are perfect for creating custom - made hanging planters, swings, or for organizing storage in the garage. In the marine industry, their corrosion - resistant properties make them ideal for securing boats, docks, and other water - related equipment. No matter the application, our products offer a reliable and customizable fastening solution.

Stringent Quality Control

Quality is our top priority. Every INCH Triangle Eye Hook Screw and Customizable M5 Eye Bolt undergoes a comprehensive quality control process. We start by carefully selecting the highest - quality stainless - steel raw materials. During the manufacturing process, we monitor every step to ensure that the threading, sizing, and overall construction meet our strict standards. After production, each product is

thoroughly inspected for any defects or imperfections. This commitment to quality means that you can rely on our products to perform flawlessly in your projects.

Exceptional Customer Support

Our dedicated customer service team is here to assist you every step of the way. Whether you have questions about customization options, installation instructions, or product compatibility, we're just a phone call or email away. We pride ourselves on providing prompt and helpful responses, ensuring that you have all the information you need to make informed decisions. From the moment you first inquire about our products to the delivery of your order, we strive to make your experience with us as smooth and satisfactory as possible. Choose our INCH Triangle Eye Hook Screws Stainless Steel Customizable M5 Eye Bolt for your next project and experience the perfect combination of customization, quality, and functionality.
