## Product Overview

Ensure fail-safe fastening in the harshest environments with our **Spring SS 316 Stainless Steel Cotter Pins**. Designed for industrial reliability, these pins combine the superior corrosion resistance of Grade 316 stainless steel with a spring-action design to secure bolts, screws, and shafts in high-vibration, high-moisture applications. Perfect for marine, chemical, and automotive systems, they provide a reusable, non-rusting solution for critical connections.

## Key Features

### Grade 316 Stainless Steel

Premium marine-grade stainless steel resists pitting, saltwater corrosion, and extreme temperatures, outperforming 304 stainless in harsh environments.

### Spring-Action Design

Flexible, split-ended construction allows easy installation and removal while maintaining constant tension to prevent loosening.

### Universal Compatibility

Fits standard screw heads, bolts, and shafts (metric and imperial) for versatile use in machinery, rigging, and equipment.

**Reusable & Durable**

Withstands repeated bending without fracturing, ensuring long-term cost efficiency and reduced downtime.

**Safety Locking**

Secures castle nuts, clevis pins, and hydraulic fittings to prevent accidental disengagement in dynamic systems.
