

Stainless Steel Mechanical Expansion Anchor Bolt Grade 8.8 with Zinc Plated Finish DIN Standard M8-M33 Sizes

Our Product Introduction

for more products please visit us on metalscrewfastener.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: FINEX
- Model Number: Anchor Bolt
- Minimum Order Quantity: 1000 pieces
- Price: \$0.05/pieces 1000-49999 pieces
- Delivery Time: 7~15 working day

Product Specification

- Material: Stainless Steel, Steel
- Finish: Zinc Plated
- Standard: DIN
- MOQ: 1 Piece In Stock, 30,000 Pcs Customized
- Package: Small Packing+Carton Packing+Pallet
- Delivery Time: In Stock 5~7 Working Days, Customized 15~25 Working Days
- Service: OEM ODM Custom Service
- Length: 1mm~500mm
- Certificate: ISO9001:2015, SGS, RoHs
- Highlight: Grade 8.8 Mechanical Expansion Anchor Bolt, m16 Mechanical Expansion Anchor Bolt, m12 Mechanical Expansion Anchor Bolt

Stainless Steel Mechanical Expansion Anchor Bolt Grade 8.8 (Sizes M8-M33) with Zinc Plated Finish

FINEX | Fine and Express FASTENERS

Full Certifications

The factory has ISO9001, ISO14001, IATF16949 system certification, and PPAP and APQP test reports can be provide

Fast Delivery

5 working days for regular products, 15 working days for customized products.

Nice Quality

Products after more than 12 inspection processes before delivery, quality is guaranteed

Competitive Price

we have advantage in the cost of raw materials. Under the same quality, our price is generally 10%-20% lower than the market.

Factory Price

20+years fastener production experience, ITS, SGS certified factory, Supports to visit our factory with video call.

Free Sample

Free design for customized samples until meet your satisfaction, free to provide product solutions

Unrivalled Quality and Strength

Our Grade 8.8 series anchor bolts are manufactured from premium materials, available in sizes from M8 to M33 (including M10, M12, M16, and M24). These high-strength fasteners deliver exceptional tensile and yield strength for demanding applications in construction, industrial machinery anchoring, and infrastructure projects.

Stainless Steel Advantage

The corrosion-resistant stainless steel construction provides superior protection in harsh environments, including coastal areas and chemical exposure applications. This durable material significantly reduces maintenance requirements while extending service life.

Key Features:

- Grade 8.8 classification for high tensile strength
- Available in sizes M8, M10, M12, M16, M24, and up to M33
- Stainless steel construction with zinc plated finish
- Precision-engineered threads for optimal grip
- Corrosion-resistant for outdoor and harsh environments
- Easy installation with expansion mechanism
- Accurate dimensions for secure fit in pre-drilled holes

Precision Engineering

Each bolt features exact thread specifications and dimensional accuracy to ensure proper fit in pre-drilled holes. The precision design eliminates play and movement after installation, critical for structural stability in high-rise buildings, bridges, and equipment installations.

Installation & Applications

Designed for efficient job site installation with straightforward expansion mechanism. Suitable for diverse applications including:

Structural steel anchoring in construction

Industrial machinery mounting

Curtain wall and balcony installations

HVAC system mounting

Conveyor systems and steel structures

Bridge repairs and infrastructure projects

Backed by rigorous quality control and manufacturing expertise, our anchor bolts provide reliable fastening solutions for professionals across multiple industries.
