Product Overview

Our Brass Knurled Thumb Nut is a versatile, corrosion-resistant fastener designed for quick, tool-free adjustments in electrical systems, marine environments, and precision equipment. Crafted from durable brass with a knurled edge for enhanced grip, this nut provides reliable conductivity, anti-corrosion performance, and effortless hand tightening. Ideal for grounding connections, control panels, and outdoor installations, it combines functionality with a sleek, professional finish.

Key Features

- Brass Construction
- Anti-Corrosion: Naturally resistant to rust, humidity, and saltwater, perfect for marine and industrial environments.
- Electrical Conductivity: Safe for grounding applications and electrical enclosures.
- Knurled Hand-Tightened Design
- Tool-Free Adjustments: Knurled edges ensure a secure grip for easy installation or removal without wrenches.
- Non-Slip Performance: Textured surface prevents slippage, even with gloves or wet hands.
- Non-Magnetic & Spark-Resistant
- Safe for Hazardous Areas: Ideal for explosive environments (ATEX) or sensitive electronics.
- Non-Interference: No magnetic disruption to sensors, relays, or communication devices.
- Wide Compatibility
- Metric & Imperial Threads: Fits M4–M12 (metric) or #8–32–½"-13 (imperial) studs, bolts, or terminals.
- Reusable: Maintains thread integrity for repeated adjustments.
